To: OPRA Multicast Data Recipients
Subject: OPRA Test Data Dissemination: REMINDER

Summary

This notification is to remind OPRA Multicast Data Recipients that **test** (including **test** Start of Day messages) data dissemination over the OPRA multicast data feeds can commence as early as 6:45 P.M. (ET) and terminate as late as 6:05 A.M. (ET) during business weekdays. This test period is accommodated to allow testing opportunities for Participants and Data Recipients as well as to provide test time to rectify any production problems that may have occurred the prior business day. Multicast data feed Recipients should take the necessary precautions to protect their systems against any adverse impact (e.g., database corruption) if processing data throughout the test data dissemination period.

During the test period, note that **test** data can be disseminated over all OPRA multicast IP channels (e.g., Production, Retransmission or Playback Test Group IP addresses). Reference the following output specifications: 1) the NMS Common IP Multicast Distribution document for the OPRA IP channel ranges and 2) the OPRA Data Recipient Specification for a summary of daily OPRA multicast line message transmission schedule. Specifications are located at the website: www.opradata.com. (under "output specs")

Questions

1. E-mail your name, organization name, phone number, and questions to:
CQS-CTS-OPRA@siac.com, or
2. Contact the Service Desk at 866-873-7422.

Sincerely,

A handwritten signature in black ink that reads "Michael Collazo". The signature is written in a cursive, flowing style.
