June 16, 2010

Dear OPRA Market Data Recipients:

In order to better utilize the bandwidth of the 24 line network at the opening and throughout the day, SIAC will revise the traffic distribution for the OPRA network. The change will be effective at the start of day August 23, 2010. I have attached the revised distribution.

Testing of the new distribution will be available, on request, on the standard Tuesday, Thursday schedule at SIAC. To schedule testing, please generate an email request to cqs-cts-opra@siac.com, or contact William Gutierrez at 212-383-4908.

Very truly yours,

Joe Corrigan
Executive Director
