January 16, 2009

Dear OPRA Market Data Recipients:

The OPRA participants have updated their traffic projections for 2009/2010. These MPS projections are based on a 5 second interval. The projections include CBOE's new options Exchange and a possible expansion of the penny pilot.

OPRA will increase the potential traffic rate from SIAC at the opening on the indicated date. The bandwidth required to receive data via your SFTI connection is also shown. Two redundant streams of data are available from SIAC. These projections are for one stream.

	Required Capacity Messages Per Second (MPS)	Bandwidth Megabits Per Second (Mbps)	Bandwidth Plus 10% For Retransmissions	Total Messages Per Day
7/7/09	2,053,000	351.1	386.2	10.5 Billion
1/5/10	2,475,000	423.2	465.5	12.5 Billion
7/13/10	2,805,000	479.7	527.7	14.6 Billion

Very truly yours,

Joe Corrigan
Executive Director
