March 10, 2008

Dear OPRA Market Data Recipients:

The ASCII network for Equity & Index Options is currently scheduled to terminate at the end of day March 14, 2008. This schedule is being extended to allow additional time for data recipient testing. The ASCII network for Equity & Index Options will now terminate at the end of day April 21, 2008. On April 22, 2008 the Equity & Index Options service will only be available on the FAST network.

The FAST for symbology network will be in production at the start of day May 5, 2008 (instead of March 31, 2008). The current FAST network will terminate at the end of day July 25, 2008 (instead of June 27, 2008).

There is no change in schedule for the separate FCO service (FCO 1) from the Philadelphia Stock Exchange. FCO 1 will be supported on the ASCII & FAST Networks until the end of day March 31, 2008.

Very truly yours,

Joe Corrigan
Executive Director
