

Securities Industry Automation Corporation
P.O. Box 24270, Brooklyn, New York, 11202-4270

May 30, 2008

To: OPRA Multicast Line Data Recipients

Subject: SIFMA Business Continuity Planning (BCP) Testing

OPRA will be available and operational for SIFMA BCP testing scheduled for **Saturday, June 7, 2008.**

SIFMA BCP Testing provides the opportunity to test back-up sites and communications capabilities in case of a scheduled delayed market opening due to an emergency or a National Day of Mourning. This test will simulate a delayed opening and will allow OPRA Participants use of the appropriate connectivity method to test their data input functionality.

Exchange Participants have been invited to enter options test data. As it is generated, OPRA will disseminate the test data via the appropriate multicast data feeds.

For more information on the SIFMA BCP test, please refer to the following web link:
http://www.sifma.org/services/business_continuity/html/industrytest08.shtml

Sincerely,

A handwritten signature in black ink that reads "Michael Collazo".
