February 16, 2006

Dear OPRA Market Data Recipients:

The OPRA participants have made revised traffic projections for 2006 and 2007. These projections update the numbers from the August 3, 2005 OPRA notice. The projected total messages per day have also been included. The projections are based on the business plans of the individual Exchanges. These plans are confidential and cannot be discussed. OPRA will increase the potential traffic rate from SIAC to the required level at the opening on the indicated date. The bandwidth required to receive data via your SFTI connection is also shown. Two redundant streams of data are available from SIAC. These projections are for one stream.

	Required Capacity Messages Per Second (MPS)	Bandwidth Megabits Per Second (Mbps)	Total Messages Per Day
May 16, 2006	190,000	108.3	1.8 Billion
January 9, 2007	230,000	131.1	2.3 Billion

Very truly yours,

Joe Corrigan
Executive Director
