January 13, 2005

Dear OPRA Market Data Recipients:

The current potential traffic rate from SIAC is 75,000 messages per second (MPS). While the overall OPRA peak has not reached this rate, one or more Exchanges have approached their allocated share of the capacity. As a result, at the opening on March 11, 2005 OPRA will increase the potential traffic rate to 88,000 MPS. This will require 50.4 megabits per second (Mbps) bandwidth.

Very truly yours,

Joe Corrigan
Executive Director
